

Who Should Be The President?

Who should be the president of the United States?

A person of wisdom, that does not see only his way?

Maybe someone who can facilitate reps of each state,

Someone who can lead the way!

Projects a vision for the country as a whole,

Can bring all parties together,

To form a more perfect union,

I believe is what our fore fathers had fortold.

The last thing the leader of our great nation should not be,

Is someone who divides people with their God given talents,

Into armies of unrest, looking to force their agendas

On me.
